

NORTHWESTERN HOLOCAUST.

Alarming Spread of the Great Forest Conflagrations.

INKY DARKNESS IN PLACES.

The Loss of Life and Property—The Work of Destruction Unabated and Spreading.

Tacoma, Sept. 12.—The nearest disastrous fire is at Elma, 60 miles southwest of here, where six large lumber mills and ten houses have been destroyed.

At 9 o'clock all wires to Gray's Harbor country went down and no word can be received from Elma or Aberdeen.

About 11 o'clock a telegram reported Eumclaw, in King county, on the main line of the Northern Pacific, east, in great danger. The town appears for a time to be burning on the main line, as many small brush fires are burning on Tacoma's outskirts, none can be spared.

The town of Bouda, in Thurston county, 45 miles south of here, was in inky darkness at 11 o'clock this forenoon.

Reports from Shelton state that nearly all of the mills in Mason county are on fire. The town of Matlock, that county, is in imminent danger of total destruction.

Sixteen miles from Olympia the Bordeaux string of camps, the Black Hill district, are in great danger. Party men have gone on horseback to rescue women and children.

In Tacoma heavy darkness settled down this morning. Boats cannot pass the narrow account of darkness. The electric plant has shut down, and at noon it was as dark as the blackest night.

Forest fires of the most serious nature are pressing upon every side of Eumclaw. Every team is being pressed into service.

THE DAMAGE SUMMED UP.

Portland, Ore., Sept. 13.—The result of the forest fires, which are raging in this vicinity, may be summed up as follows, up to the present time: Tillamook City has been saved from impending doom by a timely change in the wind.

The forests in Douglas and Jackson counties are on fire, but the damage yet is small.

Supt. Ormsby of the Cascade forest reserve says that no fire has yet entered the reserve.

Sixty people in the town of Springfield, in Clatsop county, were forced to flee for their lives and rendered homeless and a fine timber belt destroyed.

Brigades were attacked and residences threatened in South Portland.

The sawmill of the Bridal Veil Lumbering company and the whole town of Palmer, situated 20 miles east of Bridal Veil in this county, has been destroyed.

The damage in eastern Multnomah county amounts to \$42,500, and every family has been fighting the fire since Monday.

Several families have been burned out on the section line road.

Three dwellings and the county bridge are gone in Pleasant valley.

The flames surround the dwelling of a resident of Rockwood and are racing west along the base line road.

To protect the town of Greenham, men stand guard night and day. Fully 100 men are at work to save property in the dangerous heat.

At Pleasant Home, a sawmill was destroyed, and four others were in danger. Pine companies were called on for help. The residents of that part of Portland were on duty from 2 o'clock yesterday morning.

Valuable timber has been destroyed near Coho, without Sprague and Wenden and other points. Men at Wenden are swamping the timber in order to save it. The losses will amount to thousands of dollars.

The destruction of the village of Viola seems certain. The boats on the Columbia and coasting ships are due to dense smoke at the mouth of the Columbia river. The steamer Columbia is reported to be stranded in the river near Astoria.

A woman was burned to death near Vancouver, Wash., and a woman and a child are missing.

Large lumber and timber to the value of \$100,000 were destroyed in Chehalis county, Wash.

The damage near Lents, Ore., amounts to over \$25,000.

Details of losses from numerous country communities are continually arriving, and the number of small individual losses will not be finished until rain shall have come to quench the ever-spread flames. The weather bureau gives no promise of rain with the next 24 hours.

IT BECOMES AWFUL.

Elma, Wash., Sept. 13.—Forest fires are raging over a large area of country west of Elma. Several large mills suffered more or less loss and some have been destroyed.

The Star mill and village has been burned out. The men fought bravely but had to yield and fly for their lives.

Refugees are arriving from the burning district and people are beginning to move out of Elma. Many farm houses and barns have been destroyed. Ashes and cinders are falling over Elma. A high east wind fanned the fire and gives it terrific velocity.

The Old Fellows cemetery, one and a half miles from town, is burning and many Elma citizens are taking every precaution to save their homes from the threatened calamity. The seven over-half a million in their plants alone. Their total value is near the million mark.

Gen. Miles En Route.

Chicago, Sept. 12.—Lieut. Gen. Miles and party passed through Chicago tonight en route for San Francisco. Before leaving Gen. Miles called on Maj. Gen. Arthur.

"I shall not sail for the Philippines until the end of the month," said Gen. Miles, "as I intend to make a trip down the Pacific coast. There is no special occasion in my visit to the Philippines. It will be nothing more than an ordinary tour of inspection of the different army posts such as I might make here in the United States."

TREMENDOUS SENSATION.

Caused in Rome by Murder of Count Bon Martini.

Rome, Sept. 12.—A tremendous sensation has been caused in Italy by the murder of Count Bon Martini, who some days ago was found assassinated in his home at Bologna. A large sum of money had been stolen from the house and robbery was thought to have been the motive of the crime.

Prof. Martini, one of the best known physicians in Italy, was Count Martini's father-in-law. Prof. Martini has denounced

his own son, Tullio, as the murderer of the count. Tullio Martini is a well known socialist and lawyer of Bologna. He admits having murdered his brother-in-law and says the crime was committed after a brawl provoked by a family quarrel. Other reports say that a love affair is at the bottom of the mystery.

Count Martini lived apart from his wife. Tullio Martini has written his father from Serbia saying he committed the murder to avenge the ill usage of his sister. The police are unable to touch the murderer, as he cannot be extradited from Serbia.

Noted Violinist Insane.

New York, Sept. 13.—Josef Benalla, a violinist, said to have played before Italy's king and queen and in the most noted orchestras, but an outcast who has been touring this country, has been taken to Bellevue hospital insane pavilion by his wife. He played for nine hours, she said, without a break. The cause of the violinist's trouble is said to be homesickness. Benalla is a Neapolitan, 40 years old.

Old Defenders' Day.

Baltimore, Sept. 12.—Today is known here as Old Defenders' day, it being the anniversary of the battle of North Point in defense of Baltimore against the British attack of 1814. By proclamation of the governor, it is a legal holiday in the state. Commercial business was partially suspended and various patriotic celebrations were held.

They Protest.

Dublin, Sept. 12.—At a meeting of the corporation today called to deal with the action of the government in proclaiming Dublin under the crimes act, a resolution was adopted protesting against the outrage and insult of the city. The corporation is protesting against the city, in which, in proportion to the size of its population, there was less crime than in any other city in the world.

A Railroad Ghost.

London, Sept. 13.—In a dispatch from Odessa, the correspondent of the Standard says the German Bagdad railroad scheme appears to haunt the Russian press like a specter. The Novosti, goes on the correspondent, referring to the report that J. Pierpont Morgan has taken, or is about to take, considerable interest in the new railroad, observes that although Americans, Frenchmen and Englishmen will be large shareholders, the enterprise will remain essentially German.

The Novoye Vremya, the correspondent also cables, strongly advocates a strenuous policy to offset British and German activity in Persia, saying that to wait until the Selsan and Bagdad railroad line is completed would be nothing less than suicidal on the part of Russia. "It is through Persia," says the Novoye Vremya, "that Russia can outflank the Germans in Mesopotamia and the British in Baluchistan and India."

The Hungarians Moving.

New York, Sept. 13.—Anthony S. Ambrose, president of the supreme assembly of the National Slavonic society, has issued a statement in which he attempts to show a connection between the Hungarian government and the sending of the Hungarian flag to the United States. He has forwarded to the secretary of state at Washington what he says is an original secret document. This purports to be an invitation to the Hungarian minister to the United States, and further suggests that an apostolic visitor be sent to cooperate with the apostolic at Washington.

New York, Sept. 13.—Gov. Crane, who was in the president's carriage at the time it was struck by a trolley car, testified before a committee of the senate of Wm. C. Craig, the secret service officer. The governor told of approaching the foot of Howard Hill and hearing the kong on the trolley car.

On arising to see that the car was but a short distance away and approaching very fast. He could not tell just how the collision occurred. He only remembered assisting the president from the carriage.

GREAT ADVANCE IN COAL.

One of the Reasons Assigned—There May Be Others.

Chicago, Sept. 13.—The price of soft coal in Chicago has risen to \$9 a ton, as compared with \$7.75 on Sept. 1. Anthracite is practically unobtainable, and is quoted by some dealers as high as \$25 a ton.

The sudden advance in prices is attributed to the demand caused by the cold weather which, while not severe in itself, has aroused householders to a realization that their bins are empty.

Pittsfield Collision Inquest.

Pittsfield, Mass., Sept. 13.—Gov. Crane, who was in the president's carriage at the time it was struck by a trolley car, testified before a committee of the senate of Wm. C. Craig, the secret service officer. The governor told of approaching the foot of Howard Hill and hearing the kong on the trolley car.

On arising to see that the car was but a short distance away and approaching very fast. He could not tell just how the collision occurred. He only remembered assisting the president from the carriage.

LIKE A PROVIDENCE.

A Pleasant Box Changed Man's Life. Things drift into our lives in a curious way. A man was visiting the seashore while an invalid and one day a little empty Grape-Nuts box floated to him. The food facts he learned, changed his whole life—but let him tell his story.

"The doctor said I was in acute indigestion of gastritis. There was really nothing that I could eat and enjoy, and when one cannot enjoy his meals, he may as well be dead. There was a time when I could not eat and digest anything, but for two years previous to last Spring, I was in a wretched state. I tried everything I heard of, took all kinds of medicine, almost enough to float a ship, but with no lasting purpose.

Last Spring, I had to give up work and went to Atlantic City. One day while strolling along the beach, I noticed a box being tossed about on the breakers and finally thrown up on the sand. I sat down on the sand and looked at it idly at first, but after reading a few words on the box, I got interested. It told how Grape-Nuts food was prepared and all its good qualities, and I made up my mind then and there that I would try it.

I have not taken a drop of medicine from that day to this, but used about a half package of Grape-Nuts each day for two months. Then I gradually began eating meat and vegetables and fruit, and now I can eat anything I care to without it distressing me, but I still cling to Grape-Nuts food, as I am fond of it prepared in various ways and never a day passes that I don't have it in some form.

After the first two months of using Grape-Nuts, I weighed myself every 15 days, and found I gained from three to five pounds each time. I have been working every day since, and can say I never felt better. Thanks to Grape-Nuts, I now have an appetite like a billy goat and am no more troubled with a bad stomach.

I wish I could talk with everyone troubled as I was. I know a good many people say: 'Oh, I've tried everything. I am tired of trying,' etc. but I say, 'Don't give up until you try Grape-Nuts food and you will not regret it.' Name given by Postum Co., Battle Creek, Mich.

MONT PEELE REPORTED ON

By Representative of the Philadelphia Geographical Society.

AN INTERESTING DOCUMENT

The Last Eruption Greatly Exceeded In Extent the First One—Electrical Illuminations.

Fort de France, Island of Martinique, Saturday, Sept. 6.—Prof. Angelo Heilprin, president of the Philadelphia Geographical society, who is in Martinique in the interests of the National Geographical society, has made the following report on the recent eruptions of Mont Pelee:

The scene of destruction in the last eruption of Mont Pelee far surpasses in extent that of May 8, when St. Pierre was destroyed and includes the broad area lying between Macouba and Carbet, and involves Haute Tours de Bourdon, Basse Pointe, Morne Balai and Ajoupa Boulidon, where alone upwards of 300 persons were killed, as well as Morne Rouge, with a death toll of probably not less than 1,100 persons. Morne Capot and the heights somewhat this side of Fond St. Denis, the blast, however, leaving the last named place untouched. Great cinders fell also over the region of Grand Riviere, and Frechere is covered deep with ashes. In Carbet the ashes lie one foot deep and nearly the same amount covers the ruins of St. Pierre. All of Morne Rouge, with the exception of about four houses and the beautiful church has been swept to the ground and the greater part of the town has been burned up. At Ajoupa Boulidon, where one half of the town has been prostrated, there is no trace of fire of any kind.

The destructive blast, instead of confining itself to a section of area, as was the case during the first eruption, was distributed radially, crossing the low summit of the volcano near the knob of Morne Jacob, and shipping zones between its rays. The danger of Mont Pelee is thus materially increased, and perhaps no position in the north of the island is absolutely safe. The government has judiciously ordered the evacuation of all points reached by a radius of about eight or ten miles from the crater. "The recent phenomena were precisely like that of May 8, death resulting in most cases from contact with the terribly swift and hot blast which burned the houses and killed the people. The sulphur emitted from the crater during the recent eruptions was comparatively insignificant, although it densely added to the ash cloud which enveloped the harbor. The electrical illuminations during the storm were wonderful and greatly surpassed those of July 9.

"During the time I was on the volcano on the afternoon of the eruption I saw the flames and heard the roar of the lava, but I did not see the lava itself. The lava was not seen, but the great cone could not be seen. On the way to the mountain the party was enveloped in ashes and mud.

"The destruction of the several towns and localities was simultaneous, occurring at 9:10 p. m.

"There is much uneasiness all over the island of Martinique.

"The illumination of the eruption of St. Vincent, five miles from here, on the night of Wednesday was most terrifying and on Thursday morning the ash cloud from the St. Vincent volcano carried darkness to Fort de France for a period of nearly six hours. No details of the casualties on St. Vincent have as yet been received here."

CARBOLIC ACID ROUTE.

Distinguished Southerner Commits Suicide in New York.

New York, Sept. 13.—Col. John G. Garnett, one of the most prominent southerners in New York, a West Point graduate, colonel of artillery under Gen. Robert E. Lee in the confederate army and a native of Wakefield, Plantation, Westmoreland county, Virginia, has been found dead in the Ross Hotel. He had committed suicide by taking carbolie acid. The body had been lying in the room for two days before it was discovered.

Several days ago Mr. Garnett was visited by his brother, Dr. Garnett of Hot Springs, Ark., and it is supposed they quarreled. A note stating the writer had contemplated suicide for five days, was found beside the body. Mr. Garnett was the head of the St. James Publishing company and was engaged in writing a history of the West Point military academy.

Among the letters and papers found was one from President Roosevelt endorsing a plan to establish a benevolent order of the Spanish-American war veterans.

Sounds Business-like.

London, Sept. 13.—Dealing with the seriousness of the situation in Colombia, the Daily Mail this morning praises the prompt action of the United States in sending warships to the isthmus and adds: "It would be an immense gain for the world in general if only the United States would consent to its duty there and in the republics of Central America and Hayti and put down this anarchy; or, if the United States will not act themselves, allow some European power to act for them."

Eminent Delegates.

New York, Sept. 13.—The sub-committee of the executive committee of the state league of Republican clubs announces that at the national convention to be held in Chicago in October, ex-Gov. Black, Gen. James S. Clarkson and Cornelius Vanderbilt will be among the six delegates at large, to which the state league will be entitled. The speakers will be Secy. of War Root, Senator Dooliver, Senator Beveridge and M. H. de Young of San Francisco. President Leonard M. Hamilton probably will be a candidate for re-election. The candidate of the east will, it is said, be J. Hampden Moore, city treasurer of Philadelphia.

DISCUSSING ENDORSEMENT.

Whether N. Y. Republicans Are to Stand for Renomination or Not.

New York, Sept. 12.—There will be a conference between Senator Platt and several Republican leaders here tomorrow. It is expected Gov. Odell will attend. The question as to whether the Republican state convention will endorse Pres. Roosevelt as a presidential candidate in 1904 was asked Senator Platt today. After some hesitation he replied:

"The state convention will certainly endorse his administration, but I cannot say that the convention will pledge the support of the state to the president two years in advance of the nomination, as there is no precedent for such a course in this state. I do not know whether the president wants such an endorsement. I had a talk with him recently and he did not mention the

subject. I will say this, however: I think the president deserves the nomination."

LOOKS LIKE TROUBLE.

The Wisconsin En Route to Panama, The Oregon Ready to Go.

Premerton, Wash., Sept. 12.—The nose of the Wisconsin pushed into the dense cloud of smoke that hung over Puget Sound at 1 o'clock today, and the long trip to Panama had commenced. The great war vessel quickly faded away from view of the cheering townspeople. So thick is the smoke from the forest fires that the Wisconsin will have to proceed slowly. It will not have to lie up entirely to await the clearing of the atmosphere.

The Wisconsin has 500 marines aboard and enough ammunition to blow a canal through the isthmus. She sails under sealed orders. Admiral Casey was seen just before sailing. He said he expected that he would make the trip in 14 days. He would say nothing regarding the mission of the Wisconsin.

The Oregon sails tomorrow for San Francisco. It is understood here that she is to be moved that much nearer Panama in case of emergency. Capt. Purwell takes her to sea after three years at the Puget sound navy yard.

WHOLESALE CRIMINAL.

A Man Kills His Former Wife, Her Father, Assaults Her Sister.

Pierce, N. D., Sept. 12.—Last night Gottlieb Neigenfind shot and killed his former wife, Mrs. Anna Peters, shot six times at Albert Breyer, her father who died this morning, and shot the wife of Breyer in the shoulder, seriously and perhaps fatally wounding her. After the shooting Neigenfind left the house and meeting Mrs. Peters' sister, Lena Breyer, attempted a criminal assault.

Mrs. Peters had been divorced from her husband two years and he was thought to have left the country. He appeared at Pierce Sunday, however, and later paid several visits to the Breyer farm, where his former wife was living with her parents. He went to the Breyer home last evening and engaged his father-in-law in a quarrel, the trouble being over Neigenfind's children.

Mrs. Breyer ran from the house just as Neigenfind drew a revolver and fired at her husband, who received five bullet wounds in the body. Neigenfind then reloaded his revolver and began firing at Mrs. Breyer. After receiving a serious wound in the shoulder she made her escape. Neigenfind's former wife appeared and attempted to assist her mother, and received a bullet in the breast, dying instantly. Neigenfind then made his escape. He met Lena Breyer, the 19-year-old sister of his former wife, and was in the act of making an assault on her when he was frightened away.

Two sheriff's posse are now scouring the country in search of the fugitive.

NEVADA REPUBLICANS.

Congratulated by Senator Kearns—The Platform Adopted.

Reno, Nev., Sept. 12.—At the evening session of the Republican state convention a telegram from Senator Kearns of Utah was read by Chairman Lee, amid great enthusiasm, as follows:

"My heartfelt congratulations to the Republicans of Nevada. At the election given in Utah and result in victory at the polls next November. Republicans of Utah in convention yesterday nominated a ticket which is certain to receive the largest Republican majority ever given in Utah and result in victory at the polls next November. The election of President Roosevelt's administration and announces for him in 1904."

The report of the committee on platform was adopted. It endorses Hon. Thos. F. Hawley for the United States Senate. It declares for the election of United States senators by direct vote of the people. It favors the largest use of silver as a money metal in all manner compatible with the best interests of our government and pledges the nominees for Congress to exercise his best endeavors to secure the greatest use of silver; approves of the earnest efforts of the present administration to enforce to the fullest extent possible the anti-trust law; favors labor unions and favors an eight hour day in mills, mines and smelting works; it favors expansion; it holds in undying memory the heroism and the sacrifices of the soldiers and the sailors of the Republic and the Democratic party showed to the soldiers who are giving valorous service in the swamps and jungles of the Philippines.

The Republicans of Nevada uncompromisingly favor the policy of protection to American industries and American labor. It denounces the repeal of the purity of election law and demands its re-enactment. Opposes lotteries and any constitutional amendment authorizing them. Opposes legislation intended to decrease the rate of interest upon state lands; congratulates the people of Nevada upon a revival of the mining interests of the state; favors the acquisition of the United States of Lake Tahoe and its basin in order that no portion of its waters may be diverted from their natural channel; opposes the pollution of the rivers of the state.

The committee on order of business and permanent organization asked until tomorrow at 9 o'clock to complete their labors. The convention then adjourned until that hour.

BUY A COW FOR HER WORTH.

"How did that cow you bought of our friend Mr. A. turn out?" was asked of a man who, a year or two ago, purchased a fine looking thoroughbred cow. "She wasn't worth a dollar—not a dollar," was the answer. And from this it is figured out that something more than a pedigree is needed to make a good cow. She may look like a picture and have a name a foot long, but if she lacks the qualities which put good milk into the pail, she is not worth driving home. And it is to be feared that there are a good many such cows in the country. Their pedigree is about all there is of them.

Scrofula

This root of many evils—Glandular tumors, abscesses, pimples, and other cutaneous eruptions, sore ears, inflamed eyelids, rickets, dyspepsia, catarrh, readiness to catch cold and inability to get rid of it easily, paleness, nervousness, the consumptive tendency, and other ailments—

Can be completely and permanently removed, no matter how young or old the sufferer.

Hood's Sarsaparilla was given the daughter of Silas Verney, Warrington, N. Y., who had broken out with scrofula and all over her face and neck. The first bottle helped her and when she had taken six the sores were all healed and her face was smooth. He writes that she has never shown any sign of the scrofula returning.

Hood's Sarsaparilla Promises to cure and keeps the promise. Ask your druggist for it today and accept no substitute.

\$5. a Month—Medicines Free—\$5.

For All Catarrhal Chronic Diseases to All Who Apply This Month.

This generous offer is made by Drs. Shores & Shores at this time to emphasize the fact that NOW IS THE TIME TO BE CURED. One month's treatment now is worth three during the winter months—and if you want to avoid trouble this winter CURE THAT CATARRH NOW.

The mild cough of today may develop into incurable Consumption by spring if neglected—the common cold now will surely develop into Catarrh this winter—the "ringing in the ears" is but a forerunner of APPROACHING DEAFNESS.

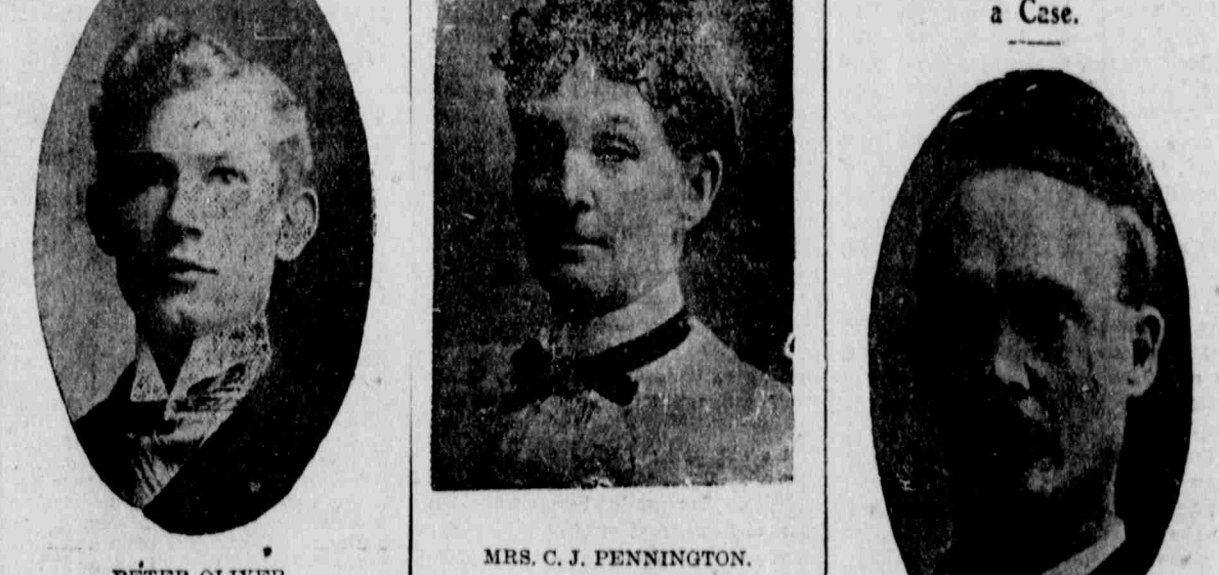

"Why Sit Ye Idle?"

When every day is valuable to you. Don't put off this duty another day. Call or write to Drs. Shores at once and begin your treatment while the season is favorable for quick results and permanent cures.

Five dollars a month, medicines free, brings Drs. Shores services within reach of all. If you have Catarrh, Asthma, Deafness, Stomach, Liver, Kidney or Nervous Troubles, this rate applies to YOU. Don't tempt fate by delaying treatment any longer—today is yours, tomorrow may be too late. Drs. Shores treatment is no experiment, it cures others—it will cure you.

NERVOUS EXHAUSTION. RELIEF THE FIRST MONTH. RELIEF IN TWO WEEKS.

An Example of What Can Be Done When Experts Handle a Case.

PETER OLIVER. 166 State St., Salt Lake City, Utah.

Mr. Oliver is a member of the well-known firm of "Oliver Bros." dealers in tents, awnings, canvas, etc., whose place of business is at 166 State street, Salt Lake City, where the firm has built up a splendid business through the high standing of the Oliver Bros. in the community.

Mr. Oliver says: "I began to suffer from Nervous Exhaustion about three months ago, and in a short time became so run down was unfit for work—lost in weight, had severe nervous spells and became very much alarmed over my condition. I went direct to Drs. Shores, knowing them to be experts in such cases, and I made no mistake, for I have steadily improved under Drs. Shores' treatment until today I feel like myself again, have regained my weight, feel first class in every way, and now I want to add my testimony to Drs. Shores' skill. They certainly deliver the goods."

(Signed) "PETER OLIVER."

MRS. C. J. PENNINGTON. 29 S. Fourth East St., Salt Lake City.

Mrs. Pennington says: "I have been a great sufferer from Catarrhal troubles for about 12 years. Among other symptoms, I noticed I was gradually losing my strength and health. My head and nose stopped up continually. I had to hawk and spit to clear my throat, and had incessant headache.

"I have been under Drs. Shores' treatment now just one month and it has been a month of pleasure to me. Already I feel much better, my head and nose are quite clear, the nose does not bleed now like it used to, and I am very much pleased with the results so far, and am glad to endorse Drs. Shores' treatment."

(Signed) "MRS. C. J. PENNINGTON."

WE TREAT AND CURE.

Catarrh and Stomach Troubles, Nervous Diseases, Kidney Diseases, Bladder Troubles, Heart Diseases, Diseases of the Stomach and Bowels, Piles, Fistula and Rectal Diseases, Female Complaints, Diseases of Women and Children, Rickets, Spinal Troubles, Skin Diseases, Deafness, Asthma, Bronchial and Lung Troubles, Consumption in the First Stages, Rheumatism, Hay Fever, Neuralgia, Hysteria, Eye and Ear Diseases, Gout or Big Neck, La Grippe, Lost Manhood, Etc.; Blood Diseases, Special Diseases, Scrofula and all forms of Nervous and Chronic Diseases (that are curable). CONSULTATION FREE. CALL OR WRITE.

Home Treatment. Drs. Shores & Shores, SPECIALISTS.
